

THEWESTSIDECOMPANY

January 2010

For thirty years the founders and staff of **The Westside Company's** service businesses AND OUR CLIENTS have been donating their time and money in support of building a caring Westside community and being a great community collaborator.

The Westside Company is a consortium of quality service businesses co-founded by lifetime Westside resident Eric Faber over his 30 year career along with other native Los Angelians. The names of our marketing divisions, restaurants, party and event businesses, IT, and real estate management, staging and home makeover services appear as contributors and supporters all over programs and events throughout the Westside that enrich the lives of others and we hope to contribute to those causes important to you and your family in our future.

We believe in supporting programs and schools that teach elementary, middle school and high school students about how to be active citizens in their communities and to make a difference.

We support schools, scholarship programs, provide jobs to youth, and donate everything we can with the intent of building welfare for all in our community. In addition to helping schools and students succeed, we help transform our communities through physical service by volunteering our time to serve on local non-profit boards and participate actively in public service to our community.

How can you raise substantial money for your organization or school?

By collaborating with any of our divisions you can garner substantial donations and revenue for your organization of choice through exposing our services to anyone who may need them in return for our donating a substantial portion of our profit back to your group on any new business we develop. **Typically we donate between 10-20% as well as our time, products and services!**

Our services touch every household so there is an opportunity for everyone!
